THE MAIN 20 GRAPHS USED IN RADIONICS

Attention, the Radionics graphics
it must only be used with the
guidance from a qualified professional

Handout translated into English by google translator, so forgive any mistakes

	<p style="text-align: center;"><u>UNPREGNANT</u></p> <p><u>Used to cleanse and purify astral or deleterious energies from objects, people, animals and plants.</u></p> <ul style="list-style-type: none"> ✓ <u>Enhance, concentrate and cleanse testimonials.</u> ✓ <u>Acts in combination with treatments in infectious processes or intoxications.</u>
	<p style="text-align: center;"><u>DECAGON</u></p> <p><u>The regular 10-sided polygon represents the materialization of perfection.</u></p> <ul style="list-style-type: none"> ✓ <u>Enhance other graphics, enhance, focus and clean up testimonials.</u> ✓ <u>It allows the production of substances, concrete or abstract by resonance</u> ✓ <u>Activate individual protection</u> ✓ <u>Average time of strengthening between 10/15 minutes in the case of testimonies such as stones, colors, people.</u>
	<p style="text-align: center;"><u>DOUBLE DECAGON</u></p> <p><u>Starting from the idea of enhancing the word-testimony in the decagon, F. and W. Servranx were led to investigate decagons with even more powerful materialization effects, such as the double decagon, with 50 and 60 mm rays. With that, the recovery time was shortened, and a lot.</u></p> <p><u>It was immediately noticed that such a device allowed impregnations from a simple testimony of words, impregnations that could be successfully used as remedies!</u></p>

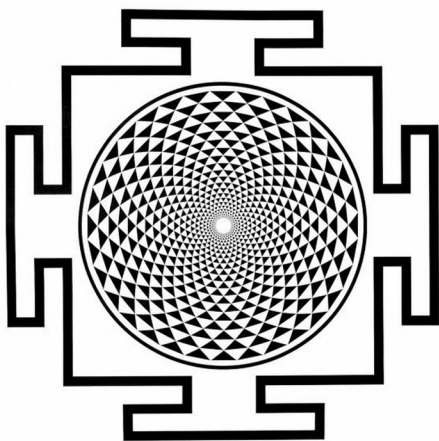

VORTICE/TOURBILLION

it helps the person using it to achieve material goals. Specially created for obtaining material goods, financial improvement, employment, etc. Based on the shape of its arcs, this graph functions as a "precipitator of material goods".

It should be borne in mind that all the work to obtain material goods must be followed with a lot of criteria and research, as there is a whole process that must be understood and respected.

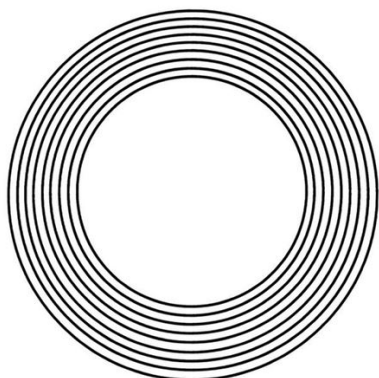

A recipe for making money? Hold a new note for some time in a bag or near your body to imbue it with its energy.

- ✓ Place your testimony (a photo) in the center of the graph

YANTRA

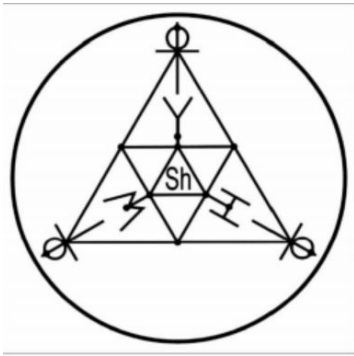

Yantra is used to clean objects, send information, create informed water and medicaments. Place the diagram towards the north, the object to be cleaned in the center and measure time with the pendulum.

NINE CIRCLES

It has the property of protecting living goods, places, objects and organisms in general from external negative energy that can be applied at a distance. Amplify our vibrational solutions for example by putting together a witness and a medicine to be sent remotely to people or animals.

- ✓ The witness and the solution must stay within the circle for at least three hours or for the time to be checked with the pendulum.

SCAAP (second version)

This device can be used in the most varied situations, in the case of magical protection applications it is sufficient to place one or more SCAPs inside a room to obtain a good level of protection.

- ✓ For individual protection, place the testimony you want to protect at the center. This graph does not cause saturation.

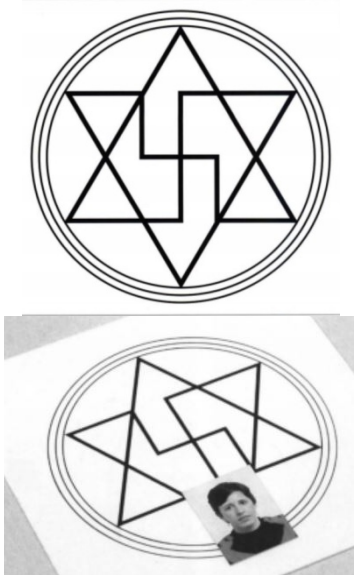

Minime dimensioni grafico
18 x 30 cm

YAVE'

YAVE was created by Jean de La Foye, a well-known French diviner. Hebrew is a language with special properties. Written Hebrew emits in form wave vibrations the value of words from forms and from the combination of characters. The "YAVE" is a neutralizing graphic of "waves of magic", created by any process of ritual magic or any type of psychic attack. Furthermore, it is a very simple graphic to use, just put a "testimony" in the center of the graph. That is to say, enough to neutralize any kind of negative influence coming from ritual magic.

- ✓ ☑ It can also be used in combination with some psychic self-defense techniques, further increasing their effectiveness.

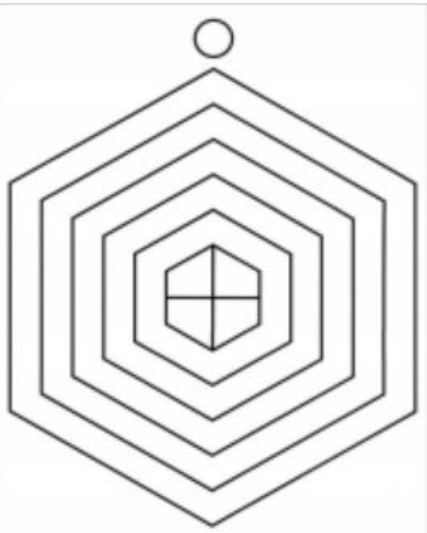

SOLOMON SEAL

Solomon's seal has been used for a variety of esoteric purposes over the centuries. And its use as a symbol of protection is known.

Published in the book Complete Treatise on High Magic, by Vasariah, and recovered for the purpose of dowsing by António Rodrigues and called by the author "Neutralizing Pentacle".

Align the plate in the NORTH direction, as indicated and place the testimony of the person to be treated as shown in the photo for the time to be searched with the pendulum.

THE SHIELD

the first anti-magic graphic published in the trade magazine EXDOCIN. One of the characteristics that makes it remarkable: it is also the first to artificially incorporate a north, in the case of the small empty circle. This graphic stimulates the unconscious mechanisms linked to psychic self-defense, which protect us from psychic attacks carried out through ritual magical procedures.

The natural or synthetic testimony is placed in the center of the graphic on the cross. Theoretically the permanence of the testimony is ten minutes, the time necessary to protect the person for 1 day and a half.

- ✓ Always check the exposure time to avoid regular saturation, which is bad for the person.

MYSTICAL SYMBOL

This graph is in the treatise on High Magic, as a supporting pentacle. The name given by Vasariah is: The mystical name of Jesus, but the Hebrew expression means: "The name of Jesus in heaven".

It is a powerful mystical pentacle used to expel evil and reduce astral vibrations. Protects against night visitors.

When used vertically, the Yod must be at the top and when horizontally, north.

For use with a witness the latter must be on the center point. The mystical symbol can be used as a "decorative object", or placed in a box or on a wall.

Its influence is frankly protection against the "evil eye" and negative entities.

- ✓ It is also used in mental development practices, in this case it must be viewed for 2/3 minutes.
- ✓ It is also a drain and cleaning circuit.

DIMENSIONE GRAFICO
22 X 22 CM

MAGIC SQUARE

It is very useful when the person affected by a state of magic is nervous, restless during the invading energy focus.

Created by António Rodrigues, this graphic is based on the decomposition of the Hebrew word Unity, whose numerical value is $1 + 8 + 4$, and on the sacred expression of the Name of Jesus on Earth. The state of saturation is not to be feared, as the natural detachment occurs when the state of saturation is reached, however it is always advisable to dows the process also to be able to take other precautions when necessary.

- ✓ If possible, align it to north (355 °)

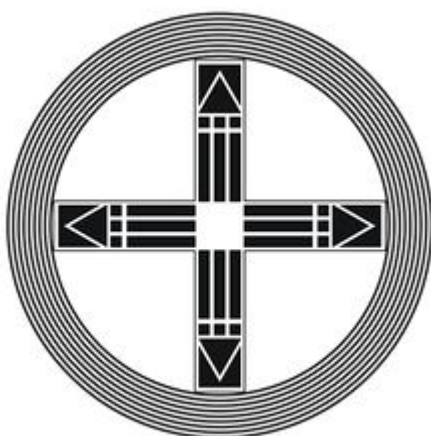

LABYRINTH

It recharges people by giving balance and serenity.

Insert the witness in the center and leave to act for at least three hours at least or ask the pendulum for the remaining time.

- ✓ Also recharges the pendulums

COSMIC CROSS

It is one of the most powerful radionic circuits in circulation, it protects against any harmful and destructive action of any kind,

- ✓ can be hung indoors to protect things,
- ✓ to protect people, just insert a witness in the center and leave it indefinitely

STAR OF DAVID

It is one of the most powerful radionic circuits in circulation, it protects against any harmful and destructive action of any kind,

- ✓ just insert the witness in the center of the star and write an intent, leave both for up to three hours.

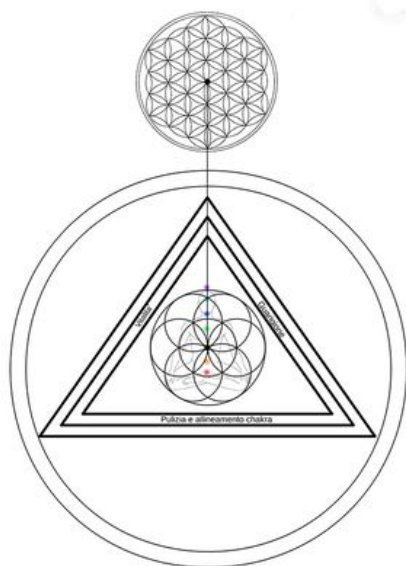

PRIMORDIAL VIBRATIONS

He was born to have contact with his own higher SELF.

Put the baton in the center and let it act until the goal is reached.

- ✓ Extremely powerful to use even just for the protection of the premises as it purifies the same from any negative energy.

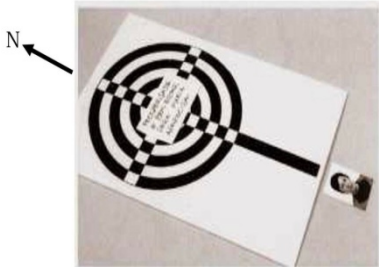

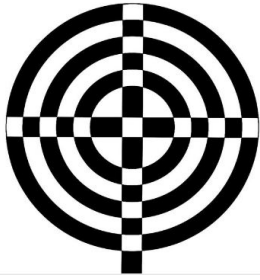

CHAKRA CLEANING

Made to help cleanse and realign the chakras.

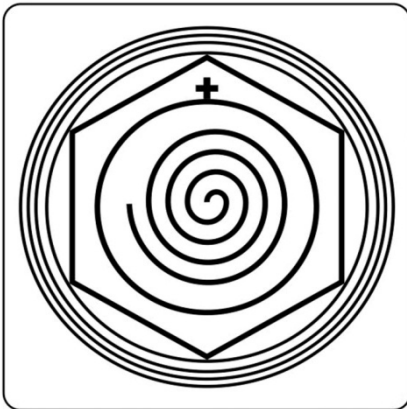

- ✓ Place the baton in the center of the triangle for 3 hours a day for at least a month

CROSS OF ATLANTIS

Atlantis, never forgotten mythical place.
This RADIONIC graphic is a representation of that place, showing the three circular walls around the island. The tree of the cross is the great access channel.

- ✓ This graph is provided with very strong emission power, it must be oriented on the NORTH-SOUTH axis as illustrated.
- ✓ Place the components that form the information or intent in the center of the graph, the witness can also be a photo that must be placed SOUTH at the end of the long arm of the cross.
- ✓ Measure the transmission time with the pendulum.

Powerful chart to disable any blocking in relationships, even of past relationships and paves the way for new relationships. The graph should be oriented north. Its function is to untangle and cleanse all the emotional energy experienced in the past. Writing in pencil or black pen on white paper: "I appreciate the strength and actions to untangle my love life, old loves or emotional entanglements or negative karmic relationships, even if I'm not aware of it, releasing all of that to start a new cycle in my life, and to attract new healthy and happy relationships. "Write your name under the sentence and place the card on top of the chart with a photo and a clean, rose quartz crystal in the de-impregnator.

Protection against all types of attacks and psychic energies sent by low frequency energy beings.
This is a powerful pentagram because it contains all the sacred symbols in one, which makes it complete. It should be used as a protection against all kinds of psychic attacks and energies sent by low frequency energy beings, such as envy, jealousy, anger, ill will, it should be used Primarily in environments where there is a large movement of people, such as in a commercial store. Put it in front of the front door at people's eye level, it doesn't need to be seen to take effect, but to "see" the movement. Use this table also in the form of a transparent sticker (to be more discreet) on walls or windows, and also printable in a smaller version

WITNESS IN RADIONICS

Witnesses are those bodies that are identical in their qualities, that is, in radiance, to the bodies that are being researched or studied, or analyzed.

The witness is almost always indispensable in radiesthetic operations because it is very useful, when it is possible to use it

The witnesses can be distinguished in:

Strong if they are real samples of the whole, such as in the case of a metal or a fluid, strong real samples of that metal or fluid are witnesses.

If, on the other hand, we refer to a person, saliva, hair, nails, etc. are strong witnesses. Today, in modern times, the idea of using blood or urine or saliva has been abandoned and it has been seen that even a photo or a signature of the person can be considered strong witnesses because they resonate with the person's energy optimally.

The radiesthesist Engineer Cesare Bardeloni, who has experimented extensively on studies on witnesses, has deduced that man's handwriting serves to individualize one subject from another through the personal wave that can be measured case by case.

He considers writing as an individual energy that in the material motion of the hand leads and realizes the thought wave which is graphically equivalent to the word without its covering of sound. We do not know which instruments Bardeloni used, but he concludes by emphasizing that through the writing the rhythmic modality with which the individual vibration of the radiant energy of the writing radiates into space is determined, and that with the system of "tuning" it is possible determine the direction in which the subject is located.

Speaking of witnesses, he states: "each drawing vibrates in the same way as the terrain represented". Instead, maps or floor plans of a house are considered weak witnesses or, in the case of a person, a garment or an object worn by them.

Sometimes the witnesses have to be artificially constructed and then vials are used in which any substance has been introduced impregnated with energy waves that represent the substance they are to represent.

To do this we resort to the so-called "radionic circuits" which we will talk about briefly.

HOW TESTIMONY IS USED

When doing research outdoors, the witness must be held in the same hand that holds the pendulum.

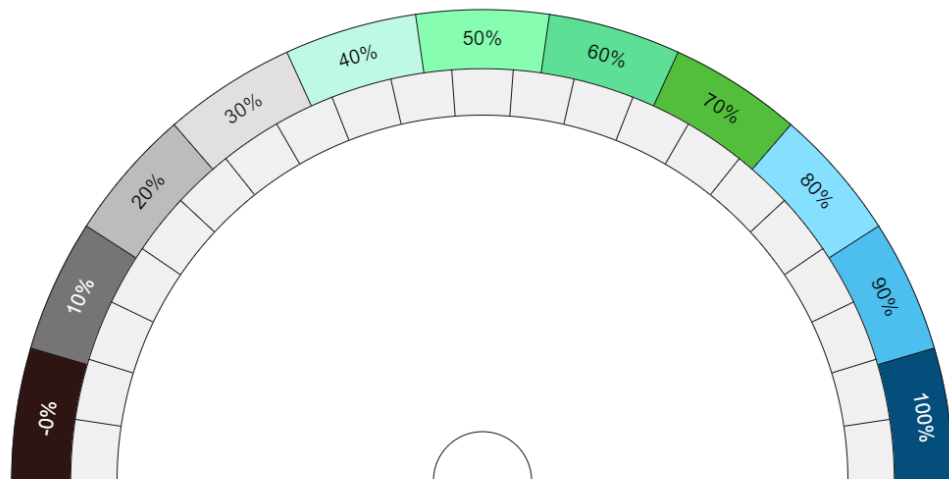

If you are working on a table, on the other hand, you can keep the witness on the surface, and with the hand opposite to the one with which the pendulum is held, touch a part of it either with a finger or with a copper rod.

Sometimes openable pendulums are used, empty internally, which allow you to insert the witness. For written witnesses, India ink can be used fortifying it with iron filings which makes it more active, but this is no longer used today.

It is good to know that a signature or a photo can be photocopied, and have the same effect as a witness. Since we know that there are the phenomena of impregnation and leftovers, for which the energy emitted by the witnesses can be polluted by other witnesses or by the hands that touch them, it is important and necessary to keep the witnesses all divided into possibly black bags, or bandaged. in aluminum foil, so as not to create interference between them.

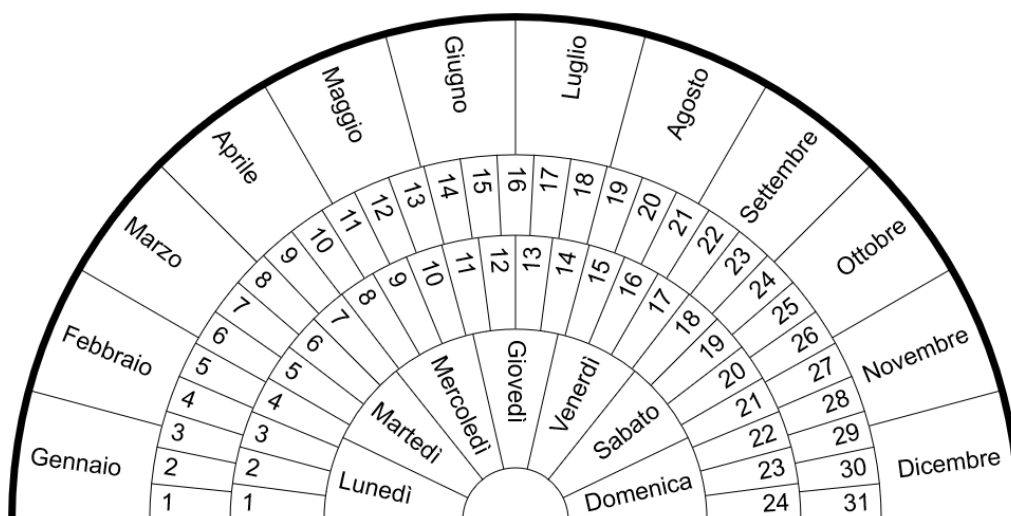

PLEASE NOTE:

- ✓ Before acting on any witness, always ask the pendulum, using a scale from 0 to 100, when it is that particular witness is valid.

crea con Subtil.net

- ✓ always ask the pendulum how many hours / days the witness must remain in the circuit to avoid saturated Energy.
